

Problems

Problem 1

According to research, about 45% working class people, students, nursing mothers, single parents and older adults around Nigeria and African at large, do not have the luxury of time or energy to go to the market to get there agricultural items and household food items (materials).

Problem 2

There is less Reliability and Trust of online platforms in terms of grocery delivery times, and availability of items.

Solution 1

Harnessing the opportunity and power of technology to solve Nigeria's(Africa) informal retail distribution problem

Solution 2

Collaborated with Vendors to make products available

Solution 3

Creating a strong and reliable local food supply chain
